

ORANGE SCHOOLS FOUNDATION

We are a nonprofit, qualified charitable organization that raises money to fund projects in Orange City School District that might not otherwise be possible. Our mission is to fund ideas that support teacher creativity and encourage student innovation throughout the district that help position the schools as a leader in public education. We receive dozens of grant requests yearly for initiatives that inspire creativity and exploration among our student-base that would not otherwise be covered by the school's budget. The foundation also manages 28 designated funds.

The foundation's board of directors includes OCSD Superintendent Dr. Lynn Campbell, two members of the Board of Education, and several teachers and staff from the early childhood, elementary, middle and high school buildings.

Board of Directors

PINSTRIPES in ORANGE VILLAGE

Funding Inspiration At Orange Schools

Join the dozens of corporations who have supported the annual fundraiser for Orange City School District presented by Orange Schools Foundation. This year's Wild for Orange is staying in our district as we take this premier fundraiser to our neighbor Pinstripes.

Why Sponsor

Wild for Orange is the foundation's primary fundraiser. Proceeds are used to underwrite grants submitted by teachers and staff for projects in the district that might not otherwise be possible. Our goal is to assist in decreasing the funding gap needed to support infrastructure, programming and a curriculum that enables our students to be ready in an increasingly competitive, global world.

How We Use Your Donation

We are committed to making your experience one that meets your organization's business goals. Your contribution will be placed in an unrestricted fund. If there is a special area of focus you would like your sponsor dollars designated for, we can create a restricted fund. We're happy to discuss your preferences with you.

Our Audience

For a full year, your organization will be seen by more than 6,500 residents of Hunting Valley, Moreland Hills, Orange Village, Pepper Pike, Woodmere and small parts of Bedford Heights, Solon and Warrensville Heights via mailed invitation, electronic notifications, social media and signage at foundation events.
